

ICT Organics

1 2 3 INSTANT COMPOST TEA™

TRANSITION TO ORGANIC LAWN CARE INSTANTLY

1 QUART TREATS OVER 2 ACRES (90,000 ft²) OF TURF

At ICT Organics, we develop environmentally sustainable sources of naturally occurring nutrients and biology for the soil and turf. These innovative products are safe, cost effective, easy to use, simple to administer, with repeatable, documented results.

These products are based on the latest advances in organic fertilization; specific Plant Growth Promoting Rhizobacteria (PGPR). PGPR supply the biology to the plant, soil and root system that profoundly affect the plant in relation to nutrition, development and health.
