

1-2-3 Hydro-Seed

For all Turf Grasses

A COMPLETE PROFESSIONAL PRODUCT LINE 100% ORGANIC FOR TURF, TREES AND LANDSCAPE

- Used for hydro-seeding, over-seeding or as a bacterial dominant inoculant.
- Reduce chemical fertilizer inputs by 75%
- Increase germination times by almost half
- One gallon of concentrate treats up to 4 acres
- Use on difficult jobs where failure is not an option
- Releases growth promoting hormones auxin, cytokinins, gibberellins

No need to stand around waiting for a mix delivery because 1-2-3 Hydro-Seed is mixed on site and added to the water used to make the slurry for hydroseeding.

**Make as much as you need, when you need it...
it's always fresh.**

Benefits include enhanced turf resilience to disease and drought, increased nutrient and water absorption. Increased microbial biomass in the soil enhances aggregation and thus improves soil porosity and structure as well as releasing growth promoting auxins, cytokinins, gibberellins, and improving nutrient cycling in turf ecosystems.

MIX RATES: One Gallon of 1-2-3 Hydroseed concentrate will treat 4 acres minimum, mix appropriately to your equipment. 8 ounces of 1-2-3 Hydroseed will treat 10,000 sq ft. Cost: \$0.002 per sq ft.

APPLICATION NOTES: Add as last ingredient to the hydro mulch mix. Use mixed product within 24 hours. The hydro mulch will protect the biology from solar UV. Enhances turf resilience to disease and drought, increased nutrient and water absorbtion.
