

MosquitoCure™

Insecticide Concentrate for Turf, Trees, and Landscapes

- Non-toxic around children, family and pets
- Proprietary neurodisruption™ NextGen technology
- EPA 25b exempt
- Provides 3 to 4 weeks of control on property
- Effective on all 4 stages of mosquitoes (egg, larva, pupa, adult)
- No aquatic setback requirements - for use near or over open water
- Excellent choice for school, playground and summer camp use

MosquitoCure™ is manufactured from plant based extracts that directly affect the nervous system and is highly effective for fast knockdown and control of mosquitoes in the landscape. These essential oils also provide long lasting repellent action.

MosquitoCure™ is intended for use with blower/sprayer, or high pressure spray equipment to ensure small particle size and maximum penetration to the landscape.

Mix/Application Rate:

Blower Mix Rate: 4 ounces MosquitoCure per 3 gallons of water
3 gallons of mix treats approximately 15,000 square feet with blower/sprayer
One gallon of concentrate treats 11 acres.

Packaged in 4 x 1 gallon jugs, 4 jugs per case, 48 cases per pallet (192 gallons)

Active ingredients: Cedarwood Oil, Lemongrass Oil, Citronella Oil, Rosemary Oil, Garlic Oil, and Red Thyme Oil

Manufactured by ICT Organics
